Frontend Developer with 4 years of experience specializing in React, TypeScript, Node.js, and CMS development. Proven expertise in integrating and customizing WordPress and SquareSpace to create seamless user experiences.

Experience

Frontend Developer

Zeropaper Africa — June 2024–September 2024

- Developed a web-based SaaS platform for food businesses, enabling efficient inventory, ordering, account management, and wallet functionalities, using React, CapacitorJS, and Node.js.
- Designed and implemented a custom algorithm for generating secure QR data, facilitating wallet-to-wallet transfers within the app.
- Integrated APIs with Axios, ensuring seamless communication between frontend and backend services.
- Utilized the Zxing library for QR code scanning and decoding functionalities.
- Translated Figma designs into pixel-perfect, responsive, cross-browser compatible UI components, improving user satisfaction by 45%

Frontend Developer

Freelance — June 2020–December 2024

- Delivered customized, responsive websites and web applications for diverse clients, utilizing React, TypeScript, and modern JavaScript frameworks.
- Designed and implemented CMS solutions, including WordPress and SquareSpace, tailored to client needs and branding guidelines which has resulted in over 1000% increase in user traffic.
- Developed single-page applications (SPAs) with seamless navigation and optimized performance, improving user engagement and SEO appearance.
- Collaborated with international clients to translate requirements into technical solutions, ensuring on-time and within-budget project delivery.
- Integrated RESTful APIs to enhance functionality, including payment gateways, data visualization, and third-party services.
- Implemented pixel-perfect designs from Figma, ensuring cross-browser compatibility and responsive layouts.
- Provided ongoing support and maintenance for delivered projects, achieving a high client satisfaction rating and earning repeat business.

Open Source Contributor

Hasty Server — UI for Documentation Website, October 2024

- Implemented an improved UI for the [Hasty Server](#) documentation site, increasing navigation efficiency for developers by 20%.
- Collaborated with the community to align UI updates with project guidelines and standards.
- Contributed to an open-source environment, using React Js and Tailwind CSS to optimize the frontend design.

Education

B. Sc. Computer Science, University of Jos, Nigeria - 2025

Purple.com — **HTML 5 and CSS 3**, March 2022

NDG Linux Unhatched — **Linux**, May 2022

Python Institute OpenEDG & Cisco NetAcad — **Python Essentials**, July 2023

Programming Skills

Frontend Frameworks: React, Next.js, Vue.js

Styling Tools: Tailwind CSS, SASS

Backend/Tools: Node.js, Git, GitHub
